CYBER SAFETY GUY

omoggle™

THE BASICS PARENTS NEED TO KNOW

Omoggle is an AI-powered video chat platform where users are randomly paired and rated on their appearance in "mog battles". It blends webcam chat with AI face scoring, leaderboards and ELO rankings—fueling a growing looksmaxxing culture.

It may seem like fun, but the risks to self-esteem, privacy and mental health are real.

AI-RATED WEBCAM BATTLES
AI analyses facial features and gives attractiveness scores (1–10).

LOOKSMAXXING CULTURE
Focused on improving looks through grooming, fitness, surgery, filters and aesthetics.

STREAMER-DRIVEN VIRALITY
Huge on Twitch, TikTok and Kick. Streamers drive engagement, clout and trends.

ELO RANKINGS & SCORE SYSTEMS
Compete, climb leaderboards and chase higher scores and validation.

HOW OMOGGLE WORKS

1 RANDOM MATCH
You're paired with a random stranger on webcam.

2 AI FACE SCAN
AI analyses your face and gives an attractiveness score (1–10).

3 MOG BATTLE
You both see each other and compete. Higher score "wins" the round.

4 ELO & RANK
Win rounds, earn ELO points and climb the leaderboards.

5 GO LIVE
Many users stream their battles for views, likes, donations and clout.

KEY TERMS TO KNOW

MOGGING: Out-appearing someone; dominating with looks.

LOOKSMAXXING: Trying to maximise your appearance through grooming, fitness, surgery, filters, etc.

PSL: (Pretty Scale) 1–10 attractiveness rating used by the community.

ELO: A ranking system that matches you with similar skill (score) levels.

WHY TEENS ARE DRAWN TO OMOGGLE

- Instant validation and attention
- Competitive leaderboards and ranks
- Thrill of random interaction
- Livestream fame and community
- Belonging in looksmaxxing culture
- Algorithms that reward engagement

RANK: TOP 6%
ELO: 1867

THE HIDDEN RISKS

- AI scores are not accurate and can be biased.
- Constant comparison damages self-esteem and body image.
- Encourages shallow thinking and objectification of others.
- Cyberbullying, roasting and public humiliation.
- Risk of exposure: your face can be recorded, clipped and shared.
- Groomers can use webcam chats to build trust and exploit.
- Addictive design keeps users chasing scores and validation.

THE LOOKSMAXXING CULTURE EXPLAINED

APPEARANCE OBSESSION
Extreme focus on looks can lead to unhealthy habits and never feeling good enough. good enough.

FILTERS & DECEPTION
Heavy use of filters, lighting tricks and angles to boost scores.

EXPENSIVE PRESSURE
Pushes products, supplements and procedures that promise "maxxing".

NEVER ENOUGH
High scores become the new normal—teens are never satisfied.

LIVESTREAM & SOCIAL PRESSURE

- Battles are streamed live on Twitch, Kick and YouTube.
- Chat rooms can be toxic, mean and sexualised.
- Streamers profit from attention, not your wellbeing.
- Public clips go viral and follow you everywhere.

WHAT PARENTS CAN DO

START THE CONVERSATION
Talk early, talk often. Ask about what they enjoy, what they see, and how it makes them feel.

VALIDATE FEELINGS
Listen without judgement. Teens compare themselves because they want to belong.

BUILD REAL CONFIDENCE
Praise effort, kindness, values and strengths—not just looks.

ENCOURAGE BALANCE
Support healthy habits, hobbies and offline friendships.

STAY INFORMED TOGETHER
Explore the platform. Learn the lingo. Make safety a team sport.

PRACTICAL CONVERSATION STARTERS

- What do you like most about Omoggle?
- How do you feel when you get a low score?
- Do you ever feel pressure to change how you look?
