

THE BASICS PARENTS NEED TO KNOW

Omoggle is a video chat platform where users are paired with strangers and rated on their appearance by AI and other users. It fuels a "mogging" culture—where people compare looks, chase higher scores, and compete for validation. It may seem like fun, but it comes with serious risks to mental health, privacy, and self-esteem.

Here's what parents need to know.

THE LOOKSMAXXING CULTURE EXPLAINED

Appearance Obsession

Encourages extreme focus on looks, often leading to unhealthy habits.

Filters & Deception

Many use beauty filters or lighting tricks to boost their score.

Expensive Pressure

Pushes products, supplements and procedures that promise "maxxing".

Never Enough

High become the new normal—teens are never satisfied.

LIVESTREAM & SOCIAL PRESSURE

- ✓ Battles are streamed live on Twitch, Kick and YouTube.
- ✓ Chat rooms can be toxic, mean and sexualised.
- ✓ Streamers profit from attention, not your wellbeing.
- ✓ Public clips can go viral and follow you everywhere.
